1. The nitrocarbide factory at the village of Ruse just west of Maribor has been producing large quantities of hydrazine hydrates during the last two months. These materials are stored in the factory warehouse with similar products from a factory at Dugirat near Sibenik. The Ruse factory employs 200 men.
2. The chemical factories at Sabotica with 450 employees, and Zaki with about 200 employees, are producing a product known as "Sulfigran", probably one of the sulfonamides.
